

Snacks for a healthy life

ABOUT

Sante Gıda is one of Turkey's leading firms in the dried fruit sector. Our managing partners have more than 25 years of experience. Our operations are conducted in our 5.000 m² fully equipped facility in Nazilli, located in the Aydın province, which has the highest yield of fig production in Turkey.

Our co-founders are third-generation professionals in the sector with extensive operational knowledge and expertise. Our management team leads a production staff of more than 200 people. We possess an extensive list of international certificates and produce to these exacting standards, always prioritizing quality and being mindful of our ecological footprints.

Our annual production capacity is 1.500 tonnes in conventional dried fig and 750 tonnes in organic. We also produce 250 tonnes of dried apricot every year. Some of the countries we export to are: Germany, Austria, France, Italy, United Kingdom, Spain, Denmark, Slovenia, Bosnia and Herzegovina, United States, Australia, China, South Korea and Taiwan. The list is ever-growing and we would love to hear from you if you are interested in being a part of our expanding network.

Whatever your requirements may be, we are here to fulfil your demands at a competitive speed and with high quality. We strive to meet any packaging specifications for our customers and pride ourselves on our thorough capacity to support their operations.

OUR DIFFERENCE

The points that differentiate Sante Gıda from other players in the sector include:

- Over 25 years of experience working with the best fig farmers in our region to source the products of the highest quality and the competitive prices.
- Our diverse production range is supported by a network of local fig farmers which is able to deliver remarkable quality and swift output.
- Adherence to international hygiene standards on all of our activities.
- The professional approach with which we fulfil the requirements of our customers.

HEALTHY SNACKS

Dried figs have an immense potential as a healthy snack option in a culinary landscape stained by artificial ingredients posing potential health risks. By using our internal production line and keeping our sources local, we minimize our carbon

footprint and extend our emphasis on public health from production to consumption. We invite you to be a part of this process.

CERTIFICATES

- BRC Global Standards
- IFS International Featured Standards
- Star-K Kosher Certificate
- Ecocert / imo
- DIN EN ISO 22000
- FDA Certificate

PRODUCTS

ORGANIC FIG

Sante Gida has an Ecocert / imo organic production project for 750 tonnes of figs annually. This has been realised through a network of business partners in our region which supply us only the best in quality with unmatched speed.

FIG CRISPS

One of the most recent creations of our research activities has been the fig crisps product. To match the customer demand with innovation, we are driven to expand our product categories further. If you would like to hear more about this product and future additions to our catalogue, please do not hesitate to contact us. We look forward to hear from you and to work with you in developing new products.

APRICOT

Along with figs, another fruit that is vital for us as a company is apricots. In conjunction with demands from our valued customers, we see apricots as another key healthy food. We utilize our extensive experience in dried fruits for this operation and meet any required customer specifications with enthusiasm and quality.
